VISION

OUR CORPORATE GOAL IN 10 YEARS

Our corporate group is one of the three largest suppliers of container solutions made from injection moulded plastic in Europe. In the markets served by Europlast, we offer impressive speed and flexibility. We continually adapt our product range to market requirements and focus on in-house production supplemented by external purchases.

GUIDING PRINCIPLE

OUR INTERNAL VALUES

COMMITMENT TO PERFORMANCE

OUR EXTERNAL VALUES

Every day counts –
SPEED OF ACTION

In harmony with nature –
ECOLOGY

We know how –
EXPERTISE

Production at the highest level –
PROFESSIONALISM

Make it easy on yourself –
TRUSTWORTHINESS

GUIDELINES

EUROPLAST is committed to complying with the relevant legal regulations and other requirements, constructing and operating plants according to the state of the art, minimising waste and environmental emissions, and working in a resource-conserving and energy-efficient manner.

EUROPLAST is committed to achieving maximum customer satisfaction and striving for ongoing improvement. EUROPLAST works according to the guidelines of ISO 9001, ISO 14001, ISO 50001, and ISO 45001.

EUROPLAST is committed to providing safe and healthy working conditions, preventing work-related injuries and illnesses, eliminating hazards, minimising SHE risks, consulting with and involving employees and their representatives, and continually improving the SHE management system.

EUROPLAST is committed to ensuring the availability of information and the resources required to achieve objectives and energy targets and ensuring the continual improvement of the EnMS.
